

# DEFENCE INDUSTRY VETERANS EMPLOYMENT SCHEME

Funded by the State Government and supported by Western Australia's defence industry, DIVES offers scholarships of up to \$5,000 to support eligible veterans with the cost of study to gain skills and knowledge for occupations in nominated priority defence industry fields.

- Industry 4.0 engineering
- Cyber
- Network engineering
- Integrated logistics support (ILS)
- Sheetmetal trades
- Software Engineer
- Sales and commercial
- Systems engineering
- PMO – Project management
- Mechanical engineering

## DIVES scholarships:

- cover costs relating to vocational education and training (VET) and university studies relevant to defence industry careers' including tuition and other compulsory fees, textbooks and equipment;
- provide career planning support to identify training or further study leading to defence industry career pathways; and
- offer free face to face professional and practical advice on career, training and employment pathways specific to defence industry occupations.

This program is open to ex-serving Australian Defence Force (ADF) members; ADF members in active or inactive reserve forces; and current ADF serving members about to transition/separate within three to six months.

## Applications are now open for the 2024 DIVES Scholarship Program

To find out more about this exciting opportunity – and for free advice on choosing the best training options to meet your career goals – please call or email the specialist defence industry team at the **Rockingham Jobs and Skills Centre**.
